SUMMARY

Passionate and motivated Web Developer with a B.Tech in Computer Science and Engineering. Skilled in both front-end and back-end development with hands-on experience building dynamic and responsive web applications using Python and Django. Strong understanding of modern web technologies and committed to building scalable and user-friendly applications.

EDUCATION

Brindavan Institute of Technology and Science (JNTUA)

2021 – 2025

B.Tech in Computer Science and Engineering

CGPA: 8.5

EXPERIENCE

Codeworks Edu.Tech Services Pvt Ltd

Jan 2025 – Apr 2025

Python Fullstack Development Intern

Kadapa, Andhra Pradesh

- Completed a hands-on internship in Python Full Stack Development working on both front-end and back-end technologies.
- Developed dynamic web applications using Python and Django and built RESTful APIs.
- Designed responsive user interfaces using HTML, CSS, and JavaScript.
- Worked with Git version control and gained real-time exposure to full-cycle web development.

Naresh i Technologies

Jun 2025 – Feb 2026

Full Stack Python Development with Data Science Intern

Hyderabad

- Learned full stack web development using Python, Django, HTML, CSS, and JavaScript.
- Worked with data science libraries including NumPy and Pandas for data analysis tasks.
- Developed mini projects and gained practical exposure to real-world development workflows.

PROJECTS

Banking Application – Full Stack Web Application

- Built a full-stack banking web application using Python and Django supporting account creation, fund transfers, balance tracking, and transaction history.
- Implemented backend logic with Django and integrated SQLite/MySQL database for secure data management.
- Designed responsive user interfaces using HTML and CSS.

Employee Management System – Web CRUD Application

- Developed an admin-based employee management system supporting create, update, delete, search, and view operations.
- Implemented CRUD functionality using Django framework and relational databases.
- Designed responsive UI using HTML, CSS, and Bootstrap.

ATM Application – Online ATM Simulation

- Developed an ATM simulation system supporting login authentication, deposit, withdrawal, balance check, and transaction logs.
- Implemented backend logic using Django with SQLite/MySQL database integration.

Google Play Store EDA Project

- Performed exploratory data analysis on Google Play Store dataset using Python data science libraries.
- Analyzed app ratings, installs, pricing, and categories using Pandas and NumPy.
- Generated insights and visualizations using Jupyter Notebook.

TECHNICAL SKILLS

- **Programming Languages:** Python[Core and Advance Level]
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Django

- **Data Science Libraries:** NumPy, Pandas
- **Databases:** MySQL
- **Developer Tools:** VS Code, PyCharm, Jupyter Notebook

SOFT SKILLS

Problem Solving, Communication, Team Collaboration, Adaptability, Time Management, Critical Thinking, Attention to Detail, Quick Learner, Self-Motivation, Curiosity for Technology.

LANGUAGES

English, Hindi, Telugu

HOBBIES

Reading Inspirational Books, Social Activism, Innovating New Ideas, Playing Cricket
