Professional Summary

- Entry-level Full Stack Developer with practical experience in building web applications using Python, Django, MySQL (or) SQLite3.
- Skilled in developing responsive user interfaces with HTML, CSS, and JavaScript, and integrating them with backend systems.
- Proficient in application development, database management, creating functional and user-friendly solutions.
- Comfortable supporting business needs through efficient, scalable web applications and clean code practices.

Professional Experiences

1. Jul, 2025 - Apr, 2026 / Naresh i Technologies- Fullstack Python Development Intern

- Built 3+ full stack web applications using Python, Django, MySQL/SQLite3, and HTML, CSS, delivering responsive and user-friendly interfaces for real-world use cases.
- Designed and developed a Banking System application with secure authentication, transaction management, and database integration, handling multiple user operations efficiently.
- Implemented form validations, error handling, and user-friendly UI features, enhancing user experience and reducing input errors.

2. Jan, 2025 - Apr, 2025 / Codeworks Edu-Tech Services PVT Ltd- Fullstack Python Development Intern

- Full Stack Developer Intern at Codeworks with hands-on experience in developing and maintaining web applications using Python and Django.
- Developed responsive and user-friendly interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Gained practical experience in integrating front-end and back-end components, debugging, and optimizing application performance while following clean coding practices.

Technical Skills

- **Programming Language:** Python (Core and Advance Level).
- **Frontend Technologies:** HTML, CSS, Javascript.
- **Framework:** Django
- **Datascience Libraries:** Numpy, Pandas
- **Database:** MySQL.
- **Tools:** VS Code, PyCharm, Jupyter Notebook.

Educational Background

2021-2025| Brindavan Institute of Technology and Science

Bachelor of Technology (CSE)

CGPA: 8.5

2019-2021 | Srichaitanya Junior College

Intermediate, (MPC)

CGPA: 9.0

Projects

Bank System Application [Github](#)

- Built a banking web application using Python and Django. Developed core features such as account creation, fund transfers, balance tracking, and transaction history, ensuring smooth and reliable user operations.
- Implemented backend logic with secure database integration using MySQL and SQLite3 for efficient data management.
- Designed responsive and user-friendly interfaces using HTML and CSS, focusing on usability and seamless user experience.

Employee Management System [Github](#)

- An Employee Management System Project using Python and Django.
- Developed core functionalities including create, update, delete, search, and view operations to efficiently manage employee data.
- Designed responsive and user-friendly interfaces using HTML, CSS, and Bootstrap, ensuring smooth navigation and improved user experience.

ATM Application [Github](#)

- Full Stack Developer with hands-on experience developing an ATM simulation system using Python and Django.
 - Implemented core functionalities including secure login authentication, deposit, withdrawal, balance inquiry, and transaction logging to simulate real-world banking operations.
 - Built robust backend logic with Django and integrated SQLite/MySQL databases to ensure accurate data processing and secure data management.
-

Certifications

- Naresh i Technologies | Fullstack Python Development with Datascience
 - Codeworks Edu-Tech Services Pvt Ltd | Web Development
-

Softskills

- Quick learner
 - Curiosity for technology
 - Problem Solving
 - Time management
-

Languages

- English
 - Hindi
 - Telugu
-

Hobbies

- Reading Inspiration Books
 - Social Activist
 - Innovating New Ideas
 - Playing Cricket
-
